Subject: Adding New THA/TKA PRO PM Measure Detail View to HQR

CMS.gov | Hospital Quality Reporting

An announcement from the Centers for Medicare & Medicaid Services (CMS):

On May 6th, we're adding a new view to the Claims-based Measure (CBM) report page in the Hospital Quality Reporting (HQR) System.

Testing with HQR users shows these changes should help you track and understand your THA/TKA PRO PM submissions.

With this change, the Claims-based Measure reports are being renamed to **Measure Details**.

Here's a summary of the changes happening to HQR:

1. Adding measure detail view for three measures
2. Renaming Claims-based Measure reports to Measure Details

There are no changes to how Claims-based Measure reports are exported.

To help you navigate this change, we will soon add a tutorial video to the HQR Playlist.

As we continue to enhance the HQR system, we'll keep you informed about any changes.
