Subject: **CART-IPFQR Version 2.3.3 Upgrade**

We are pleased to announce the CMS Abstraction and Reporting Tool (CART) IPFQR Version 2.3.3 has been released and is available on the *Quality Net* website, [CMS Quality Net](#).

This release contains updates to CART IPFQR Version 2.3.2 to resolve the following:

Users experienced errors in the SUB measure set abstraction reporting within the Version 2.3.2 release when selecting “Home” as the Discharge and certain ICD-10 codes.

Users experienced an error in the SMD measure set abstraction reporting when selecting a length of stay that was > 120 days.

CART Version 2.3.3 download is located on the *Quality Net* website. Select the **Hospitals – Inpatient Psychiatric Facilities** card on the home page of [Quality Net](#). On the Hospitals – Inpatient Psychiatric Facilities page, select **Data Management**, then select **CMS Abstraction & Reporting Tool (CART)** under **Data Collection**.

CART Version 2.3.3 can be used for calendar year (CY) 2023 dates 01-01-23 through 12-31-23. Additionally, this version can be used to abstract for discharges in CY 2023 (Q4) and through 03-31-2024 (Q1) for IMM-2.

As a reminder, this version of CART has removed the following measures from the abstraction process for the FY 2025 IPFQR data submission requirements:

- HBIPS-5 - DSC (Patients Discharged on Multiple Antipsychotic Medications with Appropriate Justification)
- TOB-2 (Tobacco Use Treatment Provided or Offered and the subset)
- TOB-2a (Tobacco Use Treatment – During the Hospital Stay)
