CMS.gov | Hospital Quality Reporting

Announcement from the Centers for Medicare & Medicaid Services (CMS):

The Hospital Quality Reporting (HQR) System will begin accepting XML file uploads for the Inpatient Psychiatric Facility Quality Reporting (IPFQR) Program on Monday, July 1 2024.

A new data form has been added, Zero-Patient Attestation, for IPFs to attest when they have zero patients or events.
This new functionality will allow data submission requirements to be met for one or more IPF measures and/or measure sets.

The IPFQR Program data submission period closes on Thursday, August 15 2024.

Additionally, we would like to notify the IPF community of two HQR IPF report updates that will be implemented soon:

- The measure-specific data will be added back to the Provider Participating Report (PPR)

- The annually submitted measure details will be separate from the quarterly COVID-19 HCP measure details on both the PPR and Facility, State, and National Report.

As the HQR System continues to improve, any changes will be communicated.

Log into HQR
