Subject: Register for the CMS Webinar on January 21, 2026 for the Digital Quality Measure (dQM) Public Comment Period

HL7 Fast Healthcare Interoperability Resources® (FHIR®) is the next-generation standard for electronic healthcare data exchange, supporting improved interoperability across clinical settings. The Centers for Medicare & Medicaid Services (CMS) is exploring the transition of electronic clinical quality measures (eCQMs) to digital quality measures (dQMs) using FHIR-based standards to enable standardized, electronic data sharing.

As CMS seeks public comment on draft dQMs, you are invited you to a webinar highlighting the transition to FHIR based standards and what to expect for the dQM Public Comment Period.

When: January 21, 2026

Who Should Attend:

Health IT developer/vendor, measure developers, implementers, and others interested in the transition to FHIR quality measurement. *This webinar assumes the attendees have prior knowledge of Health Level Seven International® and FHIR terminology.*

Webinar Topics Will Include:

- Overview of the transition to dQMs using FHIR
- Introduction to the Measure Authoring Development Integrated Environment (MADiE)
- Comparison of dQM and eCQM artifacts
- Test case examples
- CMS and CDC Hypoglycemic Reporting
- Details on the dQM public comment period

[Register here](#)

- Date: January 21, 2026
- Time: 2pm ET

Additional Information:

- Visit the [FHIR Education](#) and [dQM](#) pages on the Electronic Clinical Quality Improvement (eCQI) Resource Center for educational materials.
- Submit FHIR-related questions to: ecqi@lantanagroup.com.
- Learn more about electronic clinical quality measure standards on the [eCQI Resource Center](#).
