Subject: HQR feedback opportunity - downloadable request forms

As part of CMS' commitment to burden reduction and increased utilization of technologies, the HQR application development team wants to understand your experiences with the various downloadable request forms available on the QualityNet and Quality Reporting websites. Your input will help the Agency determine whether changes are needed.

We are looking to conduct interviews with people who have submitted at least one of the following forms:

- Data Validation Educational Review Request Form
- APU Reconsideration Request Form
- IPPS Measure Exception Form
- Request Form for Withholding/Footnoting Data for Public Reporting

An interview will last about 30 minutes and will take place via Teams.
