**Prospective Payment System (PPS)-Exempt Cancer Hospital (PCH) Facility-Specific Reports (FSRs) for Fiscal Year (FY) 2027 Program Year Now Available**

The Centers for Medicare & Medicaid Services (CMS) is providing facilities with FSRs containing information on the following two measures for program year FY 2027:

Measure	Performance Period
PCH-30/PCH-31: Admissions and Emergency Department (ED) Visits for Patients Receiving Outpatient Chemotherapy (chemotherapy measure)	July 1, 2024–June 30, 2025
PCH-37: Surgical Treatment for Localized Prostate Cancer (prostate cancer measure)	July 1, 2023–June 30, 2024

The FSRs provide facilities with an opportunity to review their results and understand their performance on the measures prior to public reporting in Summer 2026 and are accompanied by a User Guide to help facilities interpret their FSR.

**Accessing Your FSR**

FSRs are available for viewing and download on CMS’s [Hospital Quality Reporting \(HQR\) system](#) Measure Detail Dashboard. A brief instructional video on how to download your reports is available on [YouTube](#). National and facility-level performance data displayed on the dashboard can be downloaded as portable document format (PDF) and CSV files. Also available for download are patient-level CSV files that contain detailed patient-level data used to calculate the measure results.
